

SINUS SUFFERERS

No matter how severe or chronic your case may be or what treatments you have tried, or how much money spent, we want you to know that thousands of people are grateful for the amazing results they have received with our new, scientific sinus machines for home treatment, now available in limited numbers on west coast, low rental basis. This sensational new machine stops most sinus headaches in a few minutes, also gives wonderful results for drip and drainage of nose and throat in short time. Don't give up hope, prove these statements to your satisfaction in privacy of home with our free trial treatments and without cost or obligation, however you must act quick—machines limited. Write for free information, National Laboratories, P. O. Box 245, Inglewood, California.

Lomita Girl Kidnapped; Man Sought by Police

An eight-year-old Lomita girl who last Monday was kidnapped by a fiend who threatened her and tore her clothes was in a shocked condition when she was released from the degenerate's car. Sheriff's deputies searched the entire south Los Angeles county area for the man, described as being about 30 years old, wearing a leather jacket and what appeared to be an expensive gold wrist watch with a gold wristband.

The child was with a younger girl. They were on their way to Lomita Elementary School at 8:45 a.m. when they were approached. The eight-year-old child, the pretty little daughter of Pennsylvania ave. residents, was a few yards ahead of the other girl when the man drove up in a car "with a green gear-shift knob" at 255th st. The child, realizing she was late for school and frantic to reach the classroom, accepted the ride against the advice of the younger girl.

"But you're not driving toward the school!" she told the dark-eyed man who picked her up and raced northward.

The man made advances and kept driving to a remote spot in the Lomita-Torrance oil field. And when the child tried to escape he slapped her face and told her:

"You're making a good German out of me!"

This nonsensical remark was followed by attempts to gain the child's confidence. Then, the kidnaper drove back toward Lomita and released the little girl. She went to her teacher and to Principal Harriet Michaels. Sheriff's Deputies C. E. Williams and A. C. Carter were called.

The officers and others who have trailed child attackers be-

lieved that if the conditions had been favorable to his plan the fiend would have killed this little girl.

Residents of Lomita are asked to recall if they know a man who might answer the description of this fiend and are asked to report to the sheriff's office.

This is the third recent instance of children being molested in Lomita. This is another case where "all known degenerates" should be rounded up and screened and this is a time when the public should demand to know why "all known degenerates are loose."

Already, the Reconstruction Finance Corp., and the Treasury Procurement Division are disposing of large quantities of saddles and spurs, certain types of trucks, smaller ships and other commodities.

Anti-Disease Week Speakers Are Available

Civic and service clubs may obtain speaker-guests for Disease Prevention Week programs Feb. 11-18 by contacting the Torrance Health Center, 2300 Carson st., Torrance, according to Dr. Hugh Goodnow, chairman of the sponsoring committee.

Examination and treatment to prevent as well as cure tuberculosis, syphilis, gonorrhea, diphtheria, and smallpox is being urged by health and school officials. More than 1,000 lives were lost by these diseases in Los Angeles county during the past year, Dr. Goodnow reported.

In outlining plans for the week, the committee offered the following suggestions: Diphtheria. Parents of children under ten years of age not yet immunized are urged to make an appointment with their doctor or local health department so that these children can receive this treatment at once.

Small pox. Every person who has not been successfully vaccinated in the past five years is asked to make arrangements to obtain a vaccination immediately.

Tuberculosis. Chest x-ray for everyone is recommended as the best method of determining the presence of this disease so that treatments may be started at once if necessary.

Syphilis. Blood tests are suggested since the presence of syphilis is unsuspected by at least half of the people who have this disease.

Gonorrhea. Persons suspecting possible infection are advised to have an immediate examination.

On Feb. 7, a kick-off luncheon was held at the Biltmore hotel featuring a symposium of prominent health department officials and educators.

Torrance Health Center serves Torrance, Lomita, Gardena, Lawndale, Hermosa Beach, Manhattan Beach, Redondo Beach, Palos Verdes Estates, and Welteria.

Torrance Moose Lodge will hold an open meeting in the Moose hall tomorrow evening at 8 o'clock to which the public is invited. There will be entertainment and refreshments. Lt. Robert Ecton, special services officer of Torrance Army hospital, will entertain and present a program.

The local Moose lodge has sponsored the installation of the headsets for patients of the hospital to enable them to tune in on favorite programs.

A big Christmas program was staged to raise funds for the installation, and the receipt of \$2,537.57 was acknowledged previously. Since that time, a five dollar anonymous gift was received and five dollars was given by Dr. W. I. Laughon. The Christmas party cost the Moose \$2011.87, and the balance of the receipts was donated toward the cost of the headsets and two-way radio at the hospital. The total cost of the installation was \$3,361.26, and a balance of \$3,325.68 is to be raised to meet the obligation by the local Moose, according to officers of the lodge.

GUS DODOS... serving overseas with an infantry company has been advanced to sergeant, according to word this week to his friends here.

Redondo High Opens Adult School Term

The Redondo Union High School adult education center opened its new term on Monday.

Many opportunities are offered for vocational advancement for those who desire to increase their efficiency and thus help their government in war time, while at the same time insuring themselves of a place in the post war world.

The subjects include typing, shorthand, and acetylene welding, burning and machine shop. The cultural side of the community life is taken care of in such courses as fine arts, photography, arts and crafts, pottery and ceramics, Spanish and piano, while the home-making department includes knitting, clothing, woodshop and upholstery.

A large and enthusiastic class of adults are enrolled in the Civil Air Patrol classes which include meteorology and navigation. Lipreading is offered both day and evening for the hard of hearing and classes in child psychology and parent education are offered for those interested in this field. A new class in advanced first aid will be opened Monday evening, Feb. 5.

Monday Last Day To Apply for License Plates

More than one-third of the motor vehicle owners of Torrance and Lomita thus far have failed to apply for their 1945 black and white license plate according to information released by the department of motor vehicles in Sacramento today.

Despite the approach of the deadline of midnight, Feb. 5, when heavy penalties are due, department officials estimated there is a lag of some 40 percent in applications from this area.

The new plates are being dispensed at the Long Beach and Los Angeles offices of the department and at some 75 other points throughout the state. It is also possible to order them by mail by sending the 1944 registration card and a money order covering the amount of the fee as shown on the lower left hand portion of the 1944 card.

Penalties due at midnight of Feb. 5 equal 100 percent of the registration fee and 50 percent of the vehicle license fee (in lieu tax).

Department officials advise motorists of this area to apply at once and avoid the long lines that will be forming by the end of next week at all registration offices.

STORKatorials

One set of twins and two other babies were born to residents of this district during the past week at Torrance Memorial hospital.

Mr. and Mrs. Jack Hall, 621 Amapola ave. are the parents of the twins, a girl born Jan. 26, 1945, at 11:03 a.m. and a boy, born Jan. 26, 1945 at 11:13 a.m. Mrs. Vay Minor of 23842 Park st., gave birth to a girl Jan. 28, 1945 at 2:58 a.m.

A son was born to Mr. and Mrs. Frank Rodriguez, Hawthorne blvd., on Jan. 30 at 8:19 a.m.
